## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE three MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

1. Receipt is acknowledged of Applicant's Foreign Priority papers, filed January 10, 2001.
2. Claims 1-4 are presented for examination.
3. Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 1 as amended, the phrase "the same grinding axis" is without proper antecedent support. In claim 1 it is not clear whether the continuous grinding of the second step is done in the presence of the fixed abrasive grains from the first step. Further, it is not clear from the claim whether the grinding takes place continuously from the first step to the second step, or whether continuous grinding takes place only within each step. Clarification in the claim is needed.
4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

5. Claims 1-4 are rejected under 35 U.S.C. 102(a) as being clearly anticipated by Sato et al. Sato et al disclose a method of polishing of a wafer comprising polishing in a first step with fixed abrasive grains adhered to an abrasive pad, followed by fine polishing with the same abrasive pad in the presence of free abrasive grains having a smaller particle size than for the fixed abrasive polishing step.

Art Unit: 3723

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Somekh is cited to show a two-step method of polishing comprising fixed abrasive polishing on a first pad, followed by free abrasive polishing on a second pad. Cook et al is cited to show a method of wafer polishing in which a fixed abrasive pad releases free abrasive grains into the polishing slurry during the polishing process.

7. Applicant's arguments filed March 6, 2001 have been fully considered but they are not persuasive. The claims are deemed indefinite for reasons set forth above. In addition, the newly cited art of record is deemed to show fixed abrasive grinding followed by free abrasive grain polishing of the wafer.

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

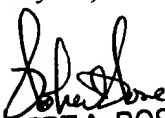

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
